

```
1  Shiny Text Demo App
2
3  # ui.R code:
4
5  library(shiny)
6  shinyUI(pageWithSidebar(
7
8    # Application title
9    headerPanel("Simple Shiny Demo: Text"),
10
11    # Sidebar with controls
12    # one control for first word (enter text in text box)
13    # one control for last phrase (select the input)
14    sidebarPanel(
15      textInput("who", "Reviewed by", "none of us"),
16      selectInput("rating", "Rating",
17                  c("Hard", "Easy", "Lame", "The Coolest Thing Ever!"))
18    ),
19
20    # Main Panel setup prints the text output from server.R
21    mainPanel(
22      h3(textOutput("review"))
23    )
24  ))
25
26
27
28  # server.R code:
29
30  library(shiny)
31  shinyServer(function(input, output){
32    output$review <- renderText({
33      paste(input$who,
34            "thinks shiny is", input$rating)
35    })
36  })
37
```
